b. Chief of UNM PD

- We had a lot of feedback and comments from last week's incident
- I don't want anyone to think that we don't care
- I have been trained for active shooters over and over again
- The only people who know how to act when there is an active shooter, are people who have been thorough it
- I wanted to come here to explain how things happened last week
- Over the call we got, it said that there is a guy a gun at people

- We respond, and we determine to send the alert in the same time that our officers are searching.
- We had to hold off the alert because there would be no need to send an alert if we had a suspect.
- At this point, we believe that he is off campus, so the threat is not on campus, but we still send an advisory to let people know and be aware of what is going on.
- We do debrief after anything that happens and we get a lot of feedback from students.
- We figured out that we could have kept students posted on our process, what we were doing and what students should do.
- Questions:
- Senator Maestas If there was an active shooter, what is the protocol?
- The doors are set up to where they aren't locked because of the fire alarm.
- Senator Cordova for the process of a lockdown, what does that look like?
- There is no universal response to these situations, Shelter in place is usually the go but that way you can be sending people to the shooter.
- Senator Hartshorn do you think we could do the active shooter training during NSO?
- This has been brought up with our meeting with the president and we will be working on it

c. ASUNM President

- Noah Brooks
- We are working with campus to find a way where ASUNM can play a role in this.
- One thing that was heard a lot is that students didn't want to go to class because they didn't feel safe to go to class.
- We want to get your opinion on tuition increase to go towards safety because we don't have any room for that without affecting academics
- Senator Myers in often time, we need to pick safety over money. I would hope to see some more mechanisms
- Senator Cordova usually I am against tuition increase but I think safety would come first
- Senator Bustillos a small amount wouldn't hurt, and we can try that for a year
- Senator Hartshorn I think UNM should be looked up from every aspect. We should look at other avenues because tuition increase will affect so many people
- Senator Lucas I think it is important to get money for safety, but we should definitely be very transparent about this money
- ELL mentee/mentor is happening soon. Let the directors know If you are interested

- DDOC and DCOS have been working a lot about sexual assault month and we might be doing something at Fiestas.
 - We have some scholarships so make sure to push for them.

- No, we will be funding at a 100% no matter what
- Does this include stipend?
- No
- Senator Myers can you explain the impact of passing one bill and not the other?
- Senator Maestas it is important for both of them to pass because if not this will benefit the agencies completely
- Senator Montoya does this mean all ASUNM salaries?

- Yes, including DOC, COS, etc.
- Senator Maestas I want to clarify that we can't fund them at less than 100% but we can change the number of hours or weeks
- Senator Ben could you define what do you mean of 100%?
- 100% of what they request.
- Discussion:
- Senator Rios line item 41 and 46, add "one-hundred percent (100%)" just so it is in consistence
- Seconded
- Senator Hartshorn friendly amendment to get rid of the percentages
- Senator Rios respectfully declines

- Motion to vote
- Seconded
- Roll call vote
- Bill approved 19-0-0-1

v. Bill 9S

- Motion to open
- Seconded and passed by all
- Senator Maestas this is for the balance forwards. In the very first meeting of the fall, the president will bring the changes that the president with put through and they will review them. I will be making a motion to flip the numbers. This will be a trial run and we stared at this amount so they agencies can take this slowly and get used to it for the next years. The amount will be reduced to 40 for the future.
- Questions:
- So, 40 thousand is what you originally had?
- Yes. We came with that number because we started making reductions from the 75 thousand. We also put in place that not advertising in the Daily lobo was going to save a lot of money. The non-work study account will also be closed if this is passed.
- Senator Cordova when would the hearings happen?
- No later than the sixth full senate meeting
- Senator Myers When you did this, were you running numbers with other years?

- The committee tends to make a lot of cuts for the agencies since they know there is balance forwards. So hopefully, they will be more genuine with cutting.
- Senator Lucas this is something will go in affect this semester?
- Yes.
- Discussion
- Senator Maestas sweeping motion to read all numbers the other way around
- Seconded
- Senator Myers would we need to write another bill next year to clear things up?
- There shouldn't be any change
- Senator Ben would you recommend taking off the dollar symbols?
- It is already crossed out but in the other parts of the law book we have it
- Discussion:
- Senator Myers I want to urge all senators to think and talk about it
- Senator Hartshorn friendly amendment to add dollar sign besides all dollar amounts
- Senator Maestas accepts the motion
- Senator Myers I think that reverting it to this way is better for the bill as a whole for a softer landing
- Senator Hartshorn friendly amendment on line 38 to change FY to spell fiscal year
- Senator Maestas accepts
- Roll call vote on the motion
- Motion approved 18-0-0-2
- Senator Hartshorn changes invert to decrease on line 28
- Seconded and passed by all
- Senator Wilks I am in favor of this bill. If next year we got less money and we had to cut down on programing. They also won't be able to request this in an appropriation
- Senator Cordova the finance committee will have to approve it right off getting there which I don't think would be ideal because they are not experienced.
- Senator Bustillos I think this is amazingly fair and it holds people accountable of where their money is going and what money are they requesting.
- Senator Cordova motion to change line item 34 to read "after the fourth senate" meeting and no later than the sixth
- Seconded
- Questions:
- Senator Hartshorn would this be the correct place in the lawbook to do this?

- This is where it is now, so it should be fine
- Wouldn't it be better to educate the committee members?
- I don't think this will be enough time.
- Senator Rios is the word meeting necessary?
- Yes
- Discussion:
- I get the intention of this motion, but I don't think that should be in our law book to limit us.
- Senator Hodge I don't think I will be voting for this change.
- Senator Myers I would like to state that I won't be voting for this change. This is under the assumption that the finance committee won't be able to handle it
- Senator Maestas it is stated in the lawbook that this will go to full senate.
- Senator Ben I don't agree with this addition. I think it will be better assumed rather than having it in the lawbook.
- Senator Cordova calls the question
- Roll call vote to call the questions
- Moving into voting
- Roll call vote
- Motion fails 1-16-2
- Motion to approve the bill
- Seconded
- Discussion:
- Senator Myers I think we should have more discussion
- Voting on moving into voting
- Roll call vote
- Motion fails
- Back in discussion on the bill
- Senator Maestas we talked about a lot how to get this number and it wasn't just decided out of nowhere. If an agency has a reasonable request it shouldn't be cut.
- Senator Hodge this is well written, and It will have a great impact
- Senator Myers I am also in support of this bill, and I was able to see the research done within it. The finance committee should be careful on how to do reductions through the budget process
- Senator Wilks there was a certain amount of money for an agency to function.
- Senator Lucas a lot of students have voiced their opinions about what they would like to see. I am in support of this bill and I urge people to think about this before voting.
- Senator Rios in order to make ASUNM transparent, this is necessary. This bill has my full support

- Senator Starkweather the concept of balance forward is not new to me but I expected to see a lot more facts and figures. But anyways, I support agency accountability and I supported this bill last semester and I just think we need to be aware of what agencies are spending their money.
- Senator Ben I am in full support of this bill. Brooks is on board on this bill and he knows his agencies better than we all do.
- Senator Maestas we are only capping the balance forwards. We are deciding what the agencies do with their extra money and not the budget process.
- Senator Oglesby I think we all know how we are going to vote

 - She had work and we didn't give her such long notice. She came and talked to me personally after that.
 - Discussion:
 - Senator Myers I looked over this resume and I knew that experience wasn't the highlight, but this is an entry position and it is good for her to learn and grow.
 - Senator Assed I have been to every volunteer meetings and when we went around the room and they all said that they came because of this candidate and she has been bringing in many new people
