- Senator Cordova I think \$20 is a fair amount and there a lot of resources
- Senator Maestas I think this is a good amount and we should approve it at that amount
- Senator Rios I just want to state that mean girls aren't available on Netflix before.

- Senator Myers I see purpose of funding movies that aren't typically shown as educational and I want to emphasize that they want to build a library.
- Senator Cordova shouldn't this belong in a budget since they want to build a library?

- I will be moving to increase some funding because of the gray area in our SR
- Questions:
- Senator Myers what kind of fundraising do they do?
- They do yard work, bake sales and the list goes on, but they are very active
- Senator Hodge what were the lines that you recommend increasing?
- Mostly the professional services and some of the trip
- Senator Maestas we cut most organization for the rule on 65% so how do we become fair about this?
- Senator Myers what cuts were made and why?
- Senator Ben the first three-line item that was reduced because they won't be able to get the money by that time. The other line item was because they are hosting an event and charging people to get in so that would be considered a fundraiser, which we don't fund. And other lines were reduced by SR

- Senator Rios I want to encourage us all to attend the group's fundraisers

- We reduced these because they are directly related to the event. These can be directly traced to the event
- Senator Hartshorn is anyone profiting from the ambulance?
- No
- Senator Oglesby Is there a reason why the Kansans tournaments were reduced?
- Because they already happened, and we can't reimburse them
- Senator Hartshorn after we raised the professional services, would it be fiscally responsible to raise that item?
- I think it would be fair to keep this at \$0
- Senator Myers will they be having an ambulance if we don't fund this?
- Yes
- Discussion:
- Senator Myers I would be more comfortable
- Nadine Oglesby increase line item 8 to \$793
- Senator Myers would be comfortable to fund it at half
- Senator Maestas we are still having appropriation at this semester and we have budgets coming up, so we need to be responsible
- Senator Ben I would love to fund this fully, but I believe that funding their request at 85% is fair enough

- Senator Kee I stand with my Finance Chair Ben on this because we need to be fiscally responsible and they might make some profit to pay for the ambulance
  - Senator Oglesby having an ambulance is a liability
  - Senator Myers this group does a lot of fundraising and I think they might be able to fundraise for this

  - Senator Cordova friendly amendment to reduce it to \$397

- Motion to open
  - Seconded and passed by all

  - In order to make our school a destination university we need to step up the technology. We are taking out two voting locations which are located In Zimmerman and the SRC's. O&A did a commuter connection and only 35 people said they would rather vote in person out of around 200 people

  - 2 students at time

- Don't quote me on this but we are hoping 5 years.
- Senator Maestas how are you going to switch people from stations to online?
- By advertising and sending out emails
- Senator Ben what was the main motive of this bill?
- Baby steps to promote online voting
- Senator Kee will having two affect anything?
- Don't think so but the director wanted it to reduce it to one polling location
- Discussion
- Senator Maestas I think we should at least keep Zimmerman library. I know this has some cost, but this can help organizations
- Senator Callaghan as someone who thought this was good idea, I think it would be beneficial to keep Zimmerman at least
- Senator Cary I support this. I think if people are going to vote they will voting anyways
- Senator Sena I think having a polling stations isn't the greatest and I think this is a great step in switching to online voting
- Senator Hodge 72% of the people we talked to rather to vote online
- Senator Myers Student organizations were being begged to operate the polling station. We should be looking at the long term and not just the short
- Senator Assed I think we should think about short term. We need to recognize the current situation. There is so much traffic already and having campaigners there will be a hazard. Thinking about both terms, getting rid of this polling station should be something to consider.
- Senator Ben I don't think accessibility plays into this. Everyone has smart devices and computers are provided on campus. I support this bill
- Senator Hartshorn this is a great step in the right direction. It Is the candidate's job to get more voters and polling station shouldn't affect it
