h) Public Comment

i) Jordan Torrez

ii) I am hear to talk about The Resolution about the lottery and how it has helped me and I would have had to go to community college if not for the lottery. I also would not have had the same success and I just got accepted into medical school. People from rural towns in New Mexico have many problems and anything you can do to help them is great.

iii) Tucker Berry I am graduation in December and I am speaking from a different perceptive then most people. Children in NM need the funds to get an education and I am support of 2S to maintain, protect, and advance NM students. I am passionate about this because it gives New Mexicans a unique opportunity and it is critical that our student graduated with less debt.

iv) DOC Focusing on the website and updating the info if you can stay after to take pictures thanks

v) Aaron Ochoa IFC recruitment chair making a statement on the IFC, Panhellenic, and MGC when we budgeted , we budgeted for 100% funding. ASUNM has funded us in the past and the charitable donation will be cut because of the new rule. Thank you for your time

vi) Michael Pierce I am also speaking for this to get full funding we don't always have speakers and this past year we didn't have one. Thank you for your time.

vii) Roland Hentz When I went though it I remember the speaker and use their narratives for my chapter. I would much appreciate your support on this.

Sarah Moore did Senator of the week and I am giving it to Senator Aufrichtig every though we don't see eye to eye and to have 17 others against you.
