Legislative Update

SB 420: Lottery Scholarship Grace Period has been reported by committee with a DO pass recommendation. It's now in the senate finance committee

HB 344: Sarinanas full- and need-based bill is still waiting. Nothing new on that, currently in the house state government Indian and Veterans' Affairs Committee

HB 250: The unclaimed prize money bill has been reported with a DO pass recommendation with amendments. The amendments basically cover that anything they put in the lottery tuition fund does not get calculated as part of their gross revenues for transmission to the state treasurer. That bill is waiting in the house business and industry committee

HB 237: Carl Trujillo's bill to extend the LET contribution to the lottery scholarship pool at a rate of 39% to 2020 has been reported by committee with a DO pass recommendation. It is currently in the house taxation and revenue committee

- i) Joint council members thought that the changes being made to the HED Core Curriculum were good and they were in support of them. The members of joint council didn't have any comments about the senate business going through tonight. However, we did ask them if there was one thing they could change at UNM what would it be? Some answers we got were parking as well as campus navigation, so this could be a good way for you as senators to get your outreach hours and still enact change that you are hearing from your constituents"

f) Boards and Committees

- i) It centralize the system
- ii) Health and safety travel

g) Public Comment

(The public Comments below are typed out as accurately as the Senate Clerk and Legislative coordinator could type with consideration that some speakers were not speaking loud enough to hear as well as human error. The public comments are not exactly word for word and not every speaker stated their first and last name.)

1. Hallie Brown: My name is Hallie Brown and today I am here to express my concern for the \$12,600.00 dollars that the UNM conservative entities are requesting to bring outwardly discriminatory and divisive speakers Ben Shaprio and Christina Hoff Summers to UNM's campus. While I do believe these speakers should not be barred from speaking on our campus, I do think ASUNM should consider the implications of fully funding these speakers. In light of the Department of Justice investigation and agreements regarding sexual assault response of on our campus, it is problematic to bring a speaker like Christina Hoff Sommers to this institution. She is an avid victim blamer and actively participates in the rape culture that our campus is trying to combat. In quote about a CDC study on sexual assault, Hoff Sommers is quoted saying, "I mean, if a woman was unconscious or incapacitated then every civilized person would call it rape. But what about sex while inebriated? Few people would say that intoxicated sex alone constitutes rape." What Hoff Sommers fails to realize is that when someone is intoxicated they cannot consent. Additionally, Hoff Sommers does not think title 9 is appropriate in science settings, meaning if there was an instance of sexual assault in a university lab, they would not need to be investigated for a violation of title 9. These problematic assertions are a perpetuation of rape culture and do not belong on this campus. Now, let's talk about Ben Shaprio. Ben Shaprio promotes exclusivity, specifically devaluing the experiences of people of color and blatantly ignores the importance of the diversity of thought. I would hate to think ASUNM would support funding someone who is so aggressively against what makes UNM one of the best places to be, that being our diversity. Our institution is a minority majority institution, meaning most of our students are from a marginalized group that Ben Shaprio has out right attacked and discredited. UNM's motto is each of us define all of us and I think fully funding these speakers does not do justice to the diverse and

accepting campus culture at UNM. While these speakers are free to say what they would like because of our right to freedom of speech, providing 12,600 dollars to two people who actively promote the discrimination of populations of our campus and lack the ability to provide an inclusive environment to all of our students does not do justice to the diverse needs of our students. Lastly, I would like to address the open meetings act and the transparency of this senate. The agenda for this meeting was not posted until midday, which is a violation of the open meetings act. How are students supposed to be able to know what is going on in senate without there being an agenda until 8 hours before the meeting? Additionally, I am privileged enough to be linked in to senate because of my past participation in ASUNM, but for people who do not have that advantage, finding out what you all are doing is really difficult. When I was a senator, I struggled to understand how students were unaware what was going on in senate, but the minute I was not longer a senator, I began to understand how lacking ASUNM Senate is in the means of transparency. While I am so happy this many people came out public comment, this is almost never the case. I encourage senators to take outreach more seriously because if outreach was consistent and frequent, there would be this many people at every senate meeting. Thank you and I encourage you to decrease the funding for these speakers.

2. Tom Holmen: I'm with Lobo Catholic, Thank you for supporting us and your consideration on our appropriation is greatly appreciated.
3. Marina Herrera: My name is Marina and I am the chairwoman of college republicans. We are here to contrast the opinion that ASUNM should not fund our speaking fees to bring Ben Shapiro and Christina Hoff. We would like to bring to light that we've been told that students don't support the opinions of these two speakers but we want to bring

these speakers to campus because of this reason. We are a university and because of that we need to bring diverse opinions to this campus. Like the President of UNM has said when we stop listening to diverse and opposing opinions the university begins to die. Even though some people don't believe in what he has to say Ben Shapiro is an amazing speaker and even though he brings controversy we need to promote the values of free speech. As a University in the United States we need to be promoting free speech and give an opportunity for students to hear different opinions. We also had controversy because we brought Milo Yinnapoulos who works for Brietbart. Shapiro also has controversy with him because he is associated with Brietbart news and the alt right movement, but that is not true. Shapiro left Brietbart news because he believed Milo was too far right. Christina is a proclaimed feminist she is a conservative feminist band but has a valid point on what she believes. It is unconstitutional to not fund these speakers because of their controversial nature.

4. Sierra with UNM-MECHA Thank you to the finance Committee for the consideration of our appropriation and we are really excited to be one of the oldest chapters in the country. To follow up on Hallie on the speaker this money is coming from student fees and we feel the money should not be coming from our fees and rape cultural is not a myth and we are concerned that victims could not legitimize them. Why cant they get fundraise like every other student org.

(Speaker did not State name but was also a member from MECHA)

5. I'm from California and MECHA is why I came to UNM and this organization has been part of my life and take this opportunity and teach the students here at UNM and all the speaker that you guys have been funding and the images of this school we are all about diversity and our basic human right and when milo came it hurt because they

was too much law enforcement and saw student get peppers sprayed and arrested all of that didn't need to happen the student of UNM did not come to UNM and say all of these speakers. Ben talks about how university indoctrinate each other and UNM releases a campaign and where do they stand and bring a speaker talking about a speaker and the students of color and our fees shouldn't go to speaker who don't think our presence on campus is helping.

6. Mountaineering Club Chris, Rachel, Jake with UNM mountaineering club. We wanted to express our hopes for the funding. We asked for money for a snowboarding trip for people who wouldn't be able to financially do this sport. The point of the club is to show students who wouldn't be able to learn how to do extreme sports. We have had support for the senate in years past that has really helped the club keep going. We would like consideration for the funding we have a lot of people in the club and the money we ask for is to go on trips. Chris joined in the fall and would like to stress how much they've benefitted from this club and not only do people learn technical skills they do get to meet people. The club has changed my life on campus and has helped me come out of my shell sometimes I get a feeling that everyone's door is shut which is great in moderation but I think part of the college experience is finding people with common interests and I would like to say that this club has a function beyond teaching people how to rock climb or do extreme sports to me it is important because it gets people together. There are so many other things we do in the club we are trying to get trail running together in addition to what we already do. There are a lot of things the club does.
7. Rachel I also wanted to share my support that I do not want student fees to go towards bringing these speakers in so please consider other options for that.

8. Hope Kiva Club the speakers and how we feel I was one of the one tear gassed and push for stand and I was bruised for a campus I pay for. I also want to say I want to encourage hear let go of the politics and especially and ingenious organization. In the after math of Milo violence that was something UNM ad have to sit with the president rather the respect our president went as a play ground for free speech. Gov. Martinez ordered state police and what has followed and a change of code of conduct and police will target student who protest and permit and expulsion from UNM state suppression and UNM College republicans and locking them in cages and the speakers. Pedophiles and molestation being consensual we talk and it time we take a stand and ASUNM support their student s and rape culture is not ok
9. I'm also here to mention the 12 demands and heard Kyle and that would not happened if we didn't get involved and we are going to keep demanding more and speak to who ever is president
10. Cristal and Dante We are here because we're going to be having the ALL event and we're going to have a self-acceptance run on April 29th. \$5 for student \$10 for anyone who is not students we have been collaborating with o and a to do an outreach event the all can take part of.
11. Tyler and Selena I'm also a student that was tear gassed and letting a white supremacy on campus and was arrest I'm co chair QSA and do not provide funding and good point and lower class women of color that violence is real and the idea that this violence is going on and it's a big middle finger for those who have to go through. The BLM moment he doesn't we don't want to talk about the move about queer people these thing are very real and I would like to ask you guess and what happen to a UNM being about true and having people who denied statistics and facts that are fact we have the opportunity and

trans people are the victims in this situation. Tran name initiative and they have to pay a 300 dollar fee to change their names and been trying for years and year and why the hell does the university and not give a shit about and I try to help the tras I'm tied of the cis-gendered hetro patriarchy taking over this university and give the money to MECHA and give them money

12. Deandra Ducham from BSA I think you've heard enough evidence and speeches about how problematic these speakers would be I wanted to share that milo shared Ice's number on screen and that hurts students. To allow these speakers to come it would be going against the universities equal opportunity. To allow speakers to come that are for harassment and against certain groups that will affect students and directly affect campus climate. When we have controversial any other acts or last time when you funded when milo came various student centers had to be closed early they could not go to those centers and for this group to bring another group because they are controversial it does not help students.

13. Sab I came to speak I am so disappoint and listen the to the student you are respecting and stop with the eye roll. So individual together the new UNM slogan and more dived her more then ever. And I don't feel welcome when those fees are going to speak and many students who aren't resented here and the undergrad body. The app is about 12000 and SSE benefiting thousand of students. And poor delegation of student tee and it is your student and I hope you consider the population not being represented her tonight.

14. Hannah Bross. I am white middle class and Christian I am someone who would stand to benefit most from these speakers. Everything I

grew up with is what these speakers bring up and promote and I do not want any of my student fees to go to them. Whether or not you think you are helping 300 students evaluate the perspective of other students. Are you furthering your own goals or the goals of other students. I had tear gas in my eyes and. who's free speech are you promoting when you pay for these speakers? I'm not saying don't let these people on campus the differences I have with the people inviting them is up to me but when you use student fee money like this what are you actually saying.

In addition to spoken Public Comment there was written public comment, which was typed as written.

Sab M.: Residence Hall Association: Student fees should never go toward events that go against UNM's mission to foster diversity (265,278,305,315)

Hannah B.: Student: Why are my required student fees going to pay for (ect: support, endorse, capitalistically reproduced) speakers that I do not personally support and who are contrary to university policy, ideology, and goals, while enacting violence against folks within our community

Alec L.: UNM Mountaineering Club: We are concerned with receiving funding for our outdoor trips this semester. I have personally found these trips to be very valuable experience. Thus, I would appreciate a contribution of fund.

Deandra D.: BSU/BSA: Allocation of funds for ethnic/minority group resource centers. Diversification of Senate.

Blythe H.: I am a queer student: Ben Shapiro and Christina Hoff Sommers should not be paid to visit UNM campus. Their views and the effect they will have for students on this campus are totally damaging. They do not wish to further our educations, they seek to marginalize and divide us.

Jake M.: UNM Mountaineering Club: Is it possible to get funding for international trips?

Samantha A.: UNM Mountaineering Club: Could the mountaineering club revote to get the \$360 for the Wolf Creek trip? This amount would help fund more students to go. We can fit up to 10 people in 2 rooms, so then more students can go. (appropriation)

Joaquina C.: KIVA Club: The College of Republicans hosting MILO

Hope A.: KIVA Club-The Red Nation: Speakers, College republicans hosting Milo

Sierra L.: MECHA: 1) importance of our funding 2) concern about funding for conservative group's speakers

x) Appropriation 26S UNM College Republicans

1. Senator Douangkeo
2. Senator Stepanek

3. Authorship Standard Senator Stepanek Line 47 is only 50% of the total cost
4. Chair Williams two things
5. We followed ASUNM Financial distribution rules
6. The Conference I asked for a list we ask question that they have to follow up on and only college republicans gave me a list of people going to CPAC.
7. Senator Martinez POC Professional Service is at 50%
8. Senator Stepanek they are expect full capacity
9. Senator Williams fundraising working for the other 50% working for Republicans
10. Senator Brooks What is the total from all orgs
11. Senator Williams IDK
12. Senator Brooks How much could this impact if we fund them at \$5,000.00
13. Senator Williams Look at what they are asking for as far as we have taken a hit , but anyone can ask for money
14. Senator Sanchez paperwork for this speaker is exactly \$10,000.00?
15. Senator Williams SGAO is very strict and watches how it is spent
16. Vice President Feltz they have to have everything looked and they would only get this amount
17. Senator Martinez looking to make it where does the money go
18. Senator Williams the money comes back to us SGAO we can get funds back and it can hold money else where but its up for discussion
19. Senator Martinez how certain did they seem
20. Senator Williams they felt very confident and aware that they can get that funding

21. Senator O'Connell line 47 to \$2,500.00
22. Senator Aufrechtig

23. Voice Vote
24. Motion Passes
25. Senator Stepanek why that amount
26. Senator O'Connell logical place a couple weeks ago 10,000 student affected about 1.65 per students I don't feel that its fiscally responsible as appose to what we funded SSE
27. Senator Aufrichtig What is the current dollar per student?
28. Senator O'Connell \$8.33
29. Senator Stepanek why are we passing it against SSE vs. Greek Week
30. Senator O'Connell I just put that there, open hear discussion
31. Senator Narvaez Would this harm them
32. Senator Williams they said they could fund \$5000.00 they have means but we have done that before and we don't always fund everyone
33. Senator Byrne they are raising 50% off it we should fund where they asked for
34. Senator Moore I believe we should lower this and has the potential to hinder student resources , UNM bookstore, and the library and potential to hinder the resources that they pay for.
35. Senator Briones part of the university were shut down that doesn't mean it happens again that shouldn't influence reductions or increases our job it to allocated funds in a neutral unbiased
36. Senator Aufrichtig cutting off services isn't a real reason the college republican legal statues(Referencing Political Believes as a protected status) that's addressed in the Law book
37. Senator Brooks I agree with the \$2,500 resources I also think that there were students affect by it and a lot of student scared coming to school. I am a registered Republican I do believe that if there are students that are scared while being on the campus I don't want to cut them to 0 and we cant discriminate. We should cut it because

of safety and UNM pushing for people to come and considering the political environment we listen to the conservatives and the liberal students and student that aren't in party lines. Only \$34,000.00 to fund and that sound like a lot the next could be higher to have funding for and they are fundraising.

38. Senator Williams I have a meeting at Monday at 3:30 I defiantly want to address everyone's comments
39. Senator Sanchez I work at Zimmerman and north campus library was open
40. Senator McGahey We need a compromise would be a great solution to this
41. Senator Narvaez making this move because the place where we are at fiscally we should start saving money and we are giving them an opportunity
42. Senator Aufrechtig Fiscally conservative we stay on budget I feel student orgs with political orgs this is a conservative group and we need to do it on a united fashion our voice needs to be clear
43. Senator Landgraf Technical Question how will this hurt them
44. Senator Williams affect you ability to bring in a speaker we asked for \$5,000.00 we thought we could cover half of the fee I'm not sure we could raise that if it reduced we would have to raise \$7,500 by the end of March or by the beginning of April
45. Senator Landgraf I think this one is really tough for me we have funded a lot of groups and wonder if they request the full amount and what we would have done.
46. Senator Stepanek They were already being fiscally conservative and we have funded near fully amount and that does look like discriminatory and it not popular I defend there right to have free speech a lot of them are attending CPAC Direct quote "they should have a voice to be represented even if our politics are different"

47. Senator Williams It not a battle you each represent 1000's of students it not necessary. This is a speaker and we look at a amount and how many student are being affected everyone should be saying something. This is a chartered student organization and they have rights and look how we have funded other organizations.
48. Senator Moore What about the safety of the students
49. Senator O'Connell Unfair they only request that percent making this the number of this is not proportional think about that.
50. Senator Aufrichtig These speakers foster free though I picked the fiscal argument because it important that we don't hand out our money and we start a fiscally responsible eye . Remind everyone we fund others and if we don't provide them we are putting a unfair weight that has not been placed before
51. Senator E. Garcia Fundraising \$5,000 is hard and funding \$7,500.00 is even more difficult
52. Senator Padilla we should reduce but not \$2,500.00 we should fund them enough

53. Senator Brooks Motion to go back to Q&A
54. Senator Williams
55. Voice Vote
56. Motion Passes

57. Senator Stepanek based on number of students not politics and looking at the math it not fair and they are getting less

58. McGahey friendly \$3,600.00
59. Senator O'Connell accepted
60. Senator Douangkeo Looking at this from a number perspective if they can fundraise \$5,000 they need to raise \$2,000 more. If they

charge they could bring in \$3,000 they have an option where they can help but not fully fund them. I am comfortable with either they could make up the money

61. Senator Landgraf wondering about the budget constrains and put it together to do one of the speakers \$7,500 for both ?
62. Senator Narvaez \$10,000 to \$7,500 split then
63. Senator Stepanek best for the students UNMPD to make sure everything is safe
64. Senator Williams both rather spilt or have funding for one
65. Senator Landgraf we need to be fiscally responsible we aren't able to talk about that the don't want student fees going towards this .
66. Senator Briones my understanding is that was a student and not happy with the way his fund were allocated because he didn't want his money going to where it was going. We as ASUNM funds student in a viewpoint is neutral we cannot make a decisions based on political views we need to treat it like another student orgs. The Supreme Court addresses that. Is the requirement would it be contrary to the high potently of the student first amendments right. Purpose of a university is to engage and debate and political activity and provides them that opportunity. A lot of weigh we have and we need to treat them as we do with other student orgs.
67. Senator Williams they can do a budget revision and we look at those in committee as long as they get passed in committee
68. Senator O'Connell they would be able to just go through
69. Roll Call Vote 12-8-0
70. Senator O'Connell tech CPAC
