2. Preliminary Business
   a. Guest Speaker: Dan Garcia, VP for Enrollment Management
      i. Thank you for the invitation to come and visit with you. I’ve been here for almost 3 months and I am happy to be here. I grew up in Arizona so Albuquerque feels like home. I have worked for a few universities as an enrollment manager or a consult. Our biggest challenge right now that I am tasked with is enrollment. Enrollment has dipped in recent years, and there are a lot of reasons for that. There is a small number of high school graduates here in Albuquerque. Only about 14,000 out of the 20,000 graduates actually go to college. Our primary focus is recruiting every high school student to come to this university. Our mission is to provide opportunity and access to student. We are also reaching out of state. We are doing that for diversity, as New Mexican students need that kind of connection. This also helps increase the enrollment. Thank you for doing this work for ASUNM and representing yourselves and the students!
      1. Questions:
      2. Sen. Zank: Thank you for coming tonight! What can you do to attract more students?
         a. I think we need to help our residents understand what a dynamic institution this is. We are a research one university and we need to have and spread that. We have to promote the high quality of our academic programs. The second
thing that we have to do is cost. We guess what will work
for the students and what kind of scholarships to give out.
We have to gather info about what the students want to pay.
We need to make this affordable and attractive. The
messaging that we are sending out about admission
requirements are simplified.

3. Sen. Lopez: Seeing that you have worked at different universities,
what problems are similar to what you have seen at different
universities and what problems are different?
   a. The first problem that I see is communication with
      prospective and current students. I am pretty impressed
      with the communication plan that we already have. We are
      working with the bursar’s office to get information out
      about payment plans. Only 10% of our students are
      utilizing a payment plan when they are accessible to all
      students. The second issue is process; how we process
      applications, orientation and we need to streamline this. We
      have to think about what the students want, not what we
      want. We have to make things easier for the student.

4. Sen. Romero: How are we, as UNM, actively recruiting in-state vs.
out of state vs. international students? How would student
involvement affect recruitment?
   a. I met with GEO about recruiting out of the country. We
      have agents in other countries as it is common for a lot of
      international countries to meet with an agent rather than
      directly apply. We have a recruitment specialist in other
      countries. We are working with a specialist in Mexico as
      we have cut their tuition in half. Out of state, we tuition
      discount a majority of the out of state students. We can
      discount their tuition to make this university more
      attractive. We have recruiters in Colorado and California.
      With in state, we have to recruit more and go to high
      schools more. We need more recruiters in the city. We have
      great support in the ethnic centers to go out and meet with
      people. We are trying to get a recruitment advisement
      council. This will help with the state of New Mexico.
   b. We need to invite more prospective students to the events
      on campus. The majority of universities do not invite
      students to come to the events on campus. Inviting these
      students is super important to helping the students feel
      welcome here. We are working with housing to have a
      priority date for housing. We are communicating with new
      students through their UNM email account, but most new
      students do not check that account. Inviting the prospective
      students to the events on campus is important.
5. MOTION to extend speaking time to the end of questions and answer
   a. MOTION is seconded and passed

6. Sen. Rivera: I commend the efforts that you do for recruiting the students. I feel that the extracurriculars is the most important part of student life. Are there any plans to work with the city to deal with the safety problems on campus?
   a. I have not approached this issue all that much. Most of the students here feel safe. One of the things that I would like to know is that if the authoritative powers that the campus police officers have. How are they treating the suspects of a possible crime? Those are things that I need to explore more. I am not sure what all the answers are, but collectively we can find some solutions.

b. ASUNM Presidents Report
   i. President Biederwolf: First off, Happy birthday to Sen. Neal! I am aware that there are a couple of greek life members that have been elected to positions in their organizations, so congratulations to them! ASUNM is planning a meet and greet with African American Student Services to see how they can get involved in ASUNM. I would like to shout out O&A for the student success week. Arts and Crafts fair started today! If you need stocking stuffers, pop in! The fair will be going on until this Friday! UNM day training is the 22nd at 5pm in Fiesta A&B. Cherry Reel Film Festival is going to be a 3 day event. November 22nd will be a meet and greet with some of the biggest names in the New Mexico film industry, November 23rd will be the film festival itself, and November 24th will be the “Retro Reel” where they show the best student films from the past. The SFRB presented their recommendations on November 14th. There were a few questions about the increase and its effect on enrollment, but it wouldn’t affect it a lot. Thank you to Sen. Hotz and Chief of Staff Silva who helped me a lot! The Campus Safety Council is excited to get these things started! We are trying to advertise the escort service to students. The Financial Planning Committee has started programming the fee increase the orgs, agencies and other places to start that outreach. We are presenting a few ideas, the $5 increase, fee based on headcount, or whatever the committee wants. Those are our three proposals, as they are due December 1st. And hopefully we can that out on the ASUNM presidential election in March. We can certainly add that on the April election for senators if we need a little more time. Thank you all for everything. I was never a senator, so I really enjoyed learning what senate is like. Thank you all for welcoming me with open arms, I respect your perspective and all that you do even if we didn’t agree. For the senators coming back, we have our work cut out for us next semester. We have good talent coming to our roster. I commend Sarah for always taking minutes, I tried doing it during SFRB and I did not realize how hard it is. Good job to Catrien for all those roll
call votes. Thank you Vice President Lucas for all your hard work, we appreciate you! I am very excited for our spring semester.

c. ASUNM Vice President Opening Remarks
   i. If you have not gotten food yet, please get some! Happy birthday Sen. Neal! Please make sure to take the capital outlay survey and send it to your orgs! Chair applications are still out and will be due Friday at 5pm. After I adjourn the meeting, we will take a photo and then exchange gifts. Right now, we are going to do our outstanding senator nominations.
      3. Sen. Regalado: I nominated these two for very special reasons. Sen. Hotz helped me even before we were senators. Being in her committee, she is always willing to help me with anything at all. She is awesome. I really think that she is deserving of this award. I also nominate Sen. Romero because he has really good ideas and is always down to help.
      4. Sen. Neal: I don’t think I need to speak much on Sen. Regalado, he is one of the most hardworking senators I have ever seen. He works so hard, and I feel like you all see that.

   i. Victoria Knight, Speaker of Joint Council: I am very happy to be here! The Women’s Resource Center and ARC are having an open house on their north campus office on December 10th El Centro will have study nights every night of dead week with Snacks! It is international week! GEO is having themed lunches at lapo everyday. Travel abroad deadline for the fall semester is February 15th. AISS is having FAFSA workshops going on for everyone! The only discussion that we had on senate business is on Resolution 2F and where the money would come from. They made a point that NMSU had a balloon and we don’t. There were some issues with Lobo Food pantry and how it is not accessible to a lot of students, so the council wanted to bring up that point so that ASUNM could help out with that. It was also brought out with some resources centers had issues with the SFRB hearings, but that was handled. There were a lot of thoughts and comments that UNM is not actually providing the correct support for the students on campus regarding mental health. They were hoping that ASUNM would help with that.

f. Boards and Committees
   i. none

g. Public Comment
   i. Adrian Schmitt, Executive Director of Governmental Affairs: We are having our second UNM Day training on Friday at 5pm, I encourage all of you guys to come! We had our tabling today, but the survey is still live, so please send that out.
   ii. Wilderness Alliance: We are dedicated to the protection, conservation, and appreciation of the UNM public lands. We do a lot of things to help with the conservation of the public lands. We combine advocacy and outreach into the lands is what sets us apart. Many of our advocacy issues not only affect the students, but also the lands. We have started our Mexican Grey Wolves campaign. We have a few trips coming up. The UNM Wilderness Alliance is fundraising with the SWFC. Because of the size and cost of this fundraiser, we cannot plan smaller events. I understand that our gear is expensive, but we would only like the best quality of the gear for our members. Our new officers took over a few weeks ago, and we have grown to 35 active members.

h. ASUNM Senators
   i. Sen. Zank: After reading Resolution 3F, this resolution seems like it is coming very close to having a political stance for ASUNM. I want to make sure that ASUNM is representing all students. I would like to make
sure that we are being careful with what we are sending out to the student body.

i. Attorney General Law Book Edits

      1. MOTION to open Condolence 1F
         a. MOTION is seconded and passed
            i. Sen. Hotz: This is a condolence for a political science professor who passed away from breast cancer. The whole department closed down so that the faculty could go to her service. This condolence is very important. The reason this failed is because it was not ready as there was a lot of reorganizing to do.
            ii. Questions:
            iii. Discussion:
iv. Sen. Lutz: This professor had a lot of impact in the political science department and the university as a whole. I think we should pass as is.

v. Sen. Lopez: Some of my political science professors were brought to tears when she passed, and this is a right step in the healing process.

We hope that by sending this out to everyone, we can start working in mental health.

   iii. Discussion:

iv. Sen. Rivera: I read through this, and I felt that this is very impactful and it does him justice.

   ii. **Questions:**

   iii. **Discussion:**

   iv. Sen. Regalado: We talked to Joanna for the reversion of funds to get a correct definition for how it works.

   a. Bill 22F is passed

iv. **Bill 23F: Edits to headings in the Elections Code**

   1. **MOTION to open Bill 23F is passed**

   a. **MOTION is seconded and passed**

   i. Sen. Hotz: This is a pretty long bill, but it is just adjusting the elections code and adding more to the code and having it align with the rest of the law book. It is mostly adding titles

   ii. **Questions:**

   iii. **Discussion:**

   iv. Sen. Aldrich: It took us a while to comb over this, but the author made a really good job with this.
v. Sen. McKim: I know this is a really long bill and it’s a lot of little changes, but we tweaked it here and there and I feel comfortable passing as is.

vi. Sen. Ali: MOTION to vote on Bill 23F
   1. MOTION is seconded and passed
      a. Bill 23F is passed

v. Commendation 4F: Richard Perce
   1. Sen. Romero: MOTION to open
      a. MOTION is seconded and passed
      i. Sen. Lutz: I wrote this commendation with Sen. Hotz. Richard worked at the Satellite in the SUB for 14 years. He is leaving the company to work for the Bernalillo county. He is such a friendly face and is always so great to see.
      ii. Questions:
      iii. Discussion:
      iv. Sen. Lopez: Richard was a really really great person. He is such a friendly person to be around. He was an influential person on this campus.
      v. Sen. Torres: I got to know Richard during Orientation. He put a lot of work into this campus.
      vi. Sen. Hotz: Anyone that goes to Satellite interacted with him. The commendation reaches a lot of different people on campus. We should pass as stands.
      vii. Sen. Lutz: MOTION to vote on Commendation 4F
           1. MOTION is seconded and passed
              a. Commendation 4F is passed

vi. Commendation 5F: ELL for Netflix
   1. Sen. Romero: MOTION to open Commendation 5F
      a. MOTION is seconded and passed
      i. Sen. Regalado: This was a commendation that I got to write with the ELLers. We got to write it in a short time period. They were really on the ball. It is recognizing Netflix for buying Albuquerque studios and the effects it will have on the economy.
      ii. Questions:
      iii. Discussion:
      iv. Sen. Romero: I appreciate that the author worked with the ELLERS.
      v. Sen. Hotz: MOTION to strike on line 52 “that”
         1. MOTION is seconded
            a. Discussion:
            b. Sen. Hotz: Some of the words in our legislation can be unnecessary.
2. MOTION is passed

   1. MOTION to open Resolution 2F
      a. MOTION is seconded and passed
         i. Sen. Hotz: This piece of legislation ELL wrote.
            They discussed topics that they wanted to write
            about. We made changes to this piece of legislation.
            They were very excited to write this piece of
            legislation!
         ii. Questions:
         iii. Discussion:
         iv. Sen. Regalado: Our advisor was wondering where
             our funding would come from for this Hot Air
             balloon. This resolution would be okay to pass this,
             but in the future we should do more research before
             writing a resolution like this.
         v. Sen. Lopez: I think this is a really great idea, I get
             upset when I see that NMSU has a balloon and we
             do not.
         vi. Sen. Romero: I agree that we should do more
             research, but I like the idea of this resolution and I
             feel that we should still pass this!
         vii. Sen. Ali: I think that this would be really cool in
             terms of recruitment and enrollment
         viii. Sen. Hotz: MOTION to unstrike the bolded T on the
            6th WHEREAS clause
               1. MOTION is seconded and passed
   ix. Sen. Zank: MOTION to vote on Resolution 2F
      1. MOTION is seconded and passed
         a. Resolution 2F is passed

viii. Resolution 3F: Opportunity Scholarship
   1. MOTION to open
      a. MOTION is seconded and passed
         i. Sen. Rivera: This resolution is intended to recognize
            what Gov. Lujan-Grisham did which is an
            Opportunity scholarship. This scholarship would
            cover 100% of the tuition for a few students. We as
            a student body need to recognize the opportunities
            for New Mexican students.
ii. **Questions:**

iii. Sen. Zank: What was the process of writing this resolution? Do you think that this resolution has any political motivation behind it?

   1. Sen. Rivera: The opportunity scholarship aims to benefit prospective students coming to UNM. This scholarship is going to help the students.
   
   2. Sen. Rivera: I did not come at this resolution at a partisan standpoint. I wanted to make sure that the resolution is aiming to benefit the students.

iv. **Discussion:**

v. Sen. Lopez: I commend the authors for helping me with this. This is coming in closer to the end of the legislation rotation. This legislation is aimed to help any New Mexican student aiming to gain a higher education. I spoke to senators to have a non-partisan outlook.

vi. Sen. Zank: I commend the authors for writing this. My only hesitation to this is political standpoint of this. I like that this talks about gaining equitable solutions for higher education. This legislation could potentially be seen as us speaking on behalf of the students.

vii. Sen. Regalado: MOTION to add an S to the end of the second “now therefore…”

   1. MOTION is seconded and passed

viii. Sen. Regalado: Before we submitted this resolution, we spoke with GA to make sure that this is non-partisan. We are pushing the opportunity to gain a higher education for all New Mexican students. I think that this is well written.

ix. Sen. Ali: I think when we discuss this legislation, we are looking at the ability to gain higher education, not supporting a political party. This scholarship is aimed at getting students to come to UNM. We are the voice of the undergrads, and this is an avenue for students who have not thought about higher education. I agree with the author with this legislation.

x. Sen. Lutz: In the past, ASUNM has supported the Lottery Scholarship for a very long time, which could be seen as a partisan issue. If something is in support of our institution, we do not really see it as
partisan. We care that we are representing this university and this institution.

xi. Sen. Hotz: MOTION to strike the S in “Increases”
   1. MOTION is seconded and passed

xii. Sen. Torres: I understand that this is a partisan issue. This scholarship is in support of this university and the whole student body. You can’t paint the whole student body with a broad brush, when the whole student body does not feel that way.

xiii. Sen. Zank: My biggest concern is someone interpreting this legislation as ASUNM supporting free college. The whole of the student body does not feel that same way, and we need to be careful of that. I am voicing my opinions on behalf of the student body.

xiv. Sen. Rivera: I hear the concerns of the other senators, but students are going to disagree with anything that they want to. What is in the best interest of the students is what should be the most important to us. The Lottery Scholarship was supported by UNM, and I do not really see the political difference between the two.

xv. Sen. Irving: This is the opportunity scholarship, and putting your political opinions aside, it is important to see that the students are supported. People are going to hate no matter what we do.

xvi. Sen. Regalado: The preamble of the legislation is just the facts. Legislators are used to writing this kind of work, and a lot of legislators will read the NOW THEREFORE LET IT BE RESOLVED clauses. It looks as if we are supporting solutions that increase access to higher education. I think that this is okay as is.

xvii. MOTION to vote on Resolution 3F
   1. MOTION is seconded and passed
      a. With a vote of 15-1-2-2, Resolution 3F is passed.

   d. Outreach and Appointments Committee
      i. Sen. Woodworth: We are done with appointments, so we are working on outreach. Student success week is coming up and I would really appreciate your help with bringing food to Zim every night. Thank you all for a good semester. Sen. Vigilant is having an event coming up, the Barbershop Talk.
ii. Sen. Zank: I would like to commend our chair for all the work that she is putting in the student success week.

iii. Outreach
   1. Sen. Vigilant: My outreach event is a talk about mental health while you are getting your haircut.
